

## ADVANTAGES

- Reusable for up to 10 years.
- Assembled in the field with no tools.
- Brings low total cost of ownership to box-filter only applications.
- Available in four standard sizes: 24x24, 20x24, 12x24, and 20x20.
- Replacement Durafil ES3 easily installs within the frame.

## Application

Air handling units with no space downstream of filter holding frame and where a face-mounted prefilter is desired.

## Installation Options

Four 12" spring style fasteners.  
Clips required to hold 2-inch prefilter to face are C-84-2. To hold 4-inch prefilter use C-84-4.
